About America On Tech:
America On Tech is an award-winning, early pipeline technology talent accelerator on a mission to decrease the racial wealth gap by creating pathways for underestimated students to thrive in technology and innovation. To date, we have worked with 3,500+ students by leveraging the time, talent and expertise of software engineers and technology professionals to teach our tuition-free courses and help provide work-based internship and learning programs to promote the advancement of underrepresented students into technology pathways. Founded in 2014, AOT's work has been featured in Forbes, CNN, The Huffington Post, TechCrunch, BET and other leading publications. AOT has also been awarded by Forbes 30 Under 30, Wells Fargo and the Brooklyn Borough President's Office.

About the Tech Skills Fellowship Program
AOT's Tech Skills Annual Fellowship Cycle is designed to provide high quality and tech-specific education for AOT college-aged alumni to prepare them for internships and careers in the technology field. We partner with corporations for specific skill verticals where students learn the basics of one of the following topics:

- Product Management
- Data Science
- Digital Marketing
- Cybersecurity & Cloud Computing
- User Experience Design

In each program vertical, students will build projects to hone their skill set and engage in a curriculum designed in partnership with the teaching experts at AOT and industry leaders. This program will culminate in projects and hands-on learning to prepare students for a career in their focus area of choice.

Our Tech Skills Fellowship instructor will work with 1 cohort of 25 students who meet once a week for 1.5 hours. The cohort will be made up of college students ranging in age from freshman to seniors.

The ideal candidate for Cybersecurity and Cloud Computing Instructor will:

- Be available Tuesday from 4pm-5:30pm EST from March 6, 2023 - May 12, 2023 + an additional 2 hours/week for preparation and assessment and optional student office hours
- Have knowledge and the ability to deliver high quality lessons about Cybersecurity and Cloud Computing.
- Attend student orientation to introduce yourself and meet the fellows
- Attend a 1-hour orientation with AOT in preparation for the program
- Assess student projects and assignments using AOT-developed rubrics
- Complete mid and post-program surveys to assess program and report on instructor experience
- Sync regularly with Program Manager to discuss program impact and to troubleshoot any challenges
- Commit- **All** sessions must be attended in order for the students to receive a seamless, high quality experience.

How to apply

Please submit your application to: www.americaontech.org/tsfcyber.html

All applicants will be considered. Only those selected for an interview will be contacted. AOT is an Equal Opportunity Employer and does not discriminate on the basis of race, color, gender, disability, age, religion, sexual orientation, or national or ethnic origin.
