About America On Tech:

[America On Tech](#) is an award-winning, early pipeline technology talent accelerator on a mission to decrease the racial wealth gap by creating pathways for underestimated students to thrive in technology and innovation. To date, we have worked with 3,500+ students by leveraging the time, talent and expertise of software engineers and technology professionals to teach our tuition-free courses and help provide work-based internship and learning programs to promote the advancement of underrepresented students into technology pathways. Founded in 2014, AOT's work has been featured in Forbes, CNN, The Huffington Post, TechCrunch, BET and other leading publications. AOT has also been awarded by Forbes 30 Under 30, Wells Fargo and the Brooklyn Borough President's Office.

About the TECH360 Program

The TECH360 Summer Bootcamp is a 4 day a week/3 week program in web design and web development for rising high school juniors and seniors. Throughout the program, students learn industry-aligned technical and professional skills. By the end of the program, students will have demonstrated mastery of HTML, CSS, and Bootstrap and will have worked in a team to create and present a final website during the end-of-program Demo Day competition.

All sessions will happen via Zoom!

Web Development Instructor Responsibilities:

- Be available Mondays, Tuesdays, Wednesdays and Thursdays from 11:00 a.m.- 3:00 p.m. from 7/26/2022 - 8/11/2022 + able to attend a 2-hour Orientation before program begins (dates/times TBD)
- Have knowledge and the ability to deliver high quality lessons on HTML, CSS, and Bootstrap
- Assess student projects and assignments using AOT-developed rubrics
- Complete mid and post-program surveys to assess program and report on instructor experience
- Sync regularly with Site Coordinator and/or Program Manager to discuss program impact and to troubleshoot any challenges
- Review curriculum and prepare lessons, enhancing content as necessary
- Commit - **All** sessions must be attended in order for the students to receive a seamless, high quality experience.

Qualifications:

- Expertise and/or experience in Web Development (HTML, CSS, Bootstrap)
- Expertise and/or experience in Web Development Instruction, particularly with high-school age audience
- Ability to explain Web Development concepts in multiple ways
- Ability to pivot while facilitating a session
- Strong communication and facilitation skills with an eye for cultural competency
- Ability to collaborate and work effectively in a fast-paced team environment
- Proficiency in Google Suite (especially Google Docs, Google Slides, Google Sheets and Google Classroom)
- Experience teaching in front of a class of high school students is a PLUS!
